

Step 1: Read Course & Experience Pre-Requisites

ArborMaster modules are designed to provide a graduated, stepped approach, building on the knowledge and skills necessary to advance to the next level. Currently, our Level 1 Tree Climbing Methods and Level 1 Precision Felling modules do not have any pre-requisites other than FT employment in the green industry (see eligibility below). However our Level 1 Arborist Rigging and all of our Level 2 modules do have required pre-requisites.

At select locations, we schedule L1 and L2 Arborist Rigging back to back with the L1C and L1PF courses. While this is a lot of information to absorb in a short period of time, some participants desire to take all courses offered in one visit.

If you would like to stay for one or both of the rigging courses (please select in Section 3), and in order for us to determine if you have the level of field experience to do so, we ask that you review the following criteria and indicate your level of experience in Step 2. We will review and may follow up with a phone call to discuss in further detail.

At least one year full time in an arborist role is required. If less than 1 year experience, a student should not continue on to the L1 Rigging without a minimum of 6 months of full time skill building & experience after taking both the L1C & L1PF modules.

However if a student has at least 1 year full time field experience and has taken the L1C & L1PF, we may allow them to stay on for the L1R and L2R in April, based on experience level and review by ArborMaster.

Step 2: Indicate Experience Level:
